

Iftikhar Hussain Jaffari

Computer Science Graduate | Python Developer | AI/ML Enthusiast

Islamabad, Pakistan | +92 343 652 2980 | Iftikharjafry980@gmail.com

Professional Summary

Recent Computer Science graduate with a strong foundation in Python, Data Science, Machine Learning, and Artificial Intelligence, with hands-on experience developing academic and personal projects. Skilled in Python, Pandas, NumPy, Scikit-learn, PyTorch, Transformers, Flask, FastAPI, SQL, and REST APIs. Developed projects involving machine learning, natural language processing, BERT-based text classification, data analysis, and backend API development. A motivated and fast learner seeking an entry-level opportunity in AI/ML, Data Science, or Python development where I can apply my technical skills, gain industry experience, and contribute to real-world projects.

Technical Skills

Programming	Python, JavaScript, SQL, HTML, CSS
Backend & APIs	Flask, FastAPI, REST APIs, SQLAlchemy, Unicorn
Data Science & Machine Learning	Pandas, NumPy, Scikit-learn, PyTorch, Transformers, BERT
Databases	SQLite, Firebase, JSON
Frontend	HTML, CSS, Bootstrap, JavaScript
Tools	Git, GitHub, VS Code, Jupyter, Google Colab, Kaggle, Anaconda

Education

Bachelor of Science in Computer Science	Jan 2026
National University of Modern Languages (NUML), Islamabad	
Intermediate in Computer Science (ICS)	2021
Public School and College, Skardu	

Projects

Cyberbullying Detection using BERT

Natural Language Processing + Deep Learning

- Developed a text classification project for detecting cyberbullying content.
- Applied BERT-based NLP techniques for text classification.

Movie Recommendation System

Content-Based Filtering

- Developed a movie recommendation system using content-based filtering techniques.

Credit Card Fraud Detection

Imbalanced Machine Learning

- Developed a machine learning project for detecting fraudulent credit card transactions.
- Worked with an imbalanced classification problem.

Customer Churn Prediction

Classification + Exploratory Data Analysis

- Developed a customer churn prediction project using classification techniques.
- Performed exploratory data analysis to understand customer behavior and patterns.

Certifications

- AI and ML** — Corvet Institute, Rawalpindi, 2024
- Python, Django Framework and HTML5** — Udemy
